ABOUT ME

An Information Systems professional with skills in IT support, network administration, cybersecurity, web development, and database management. Experienced in troubleshooting hardware and software issues, maintaining IT infrastructure, and developing practical technology solutions. A quick learner with strong analytical, problem-solving, and teamwork skills, passionate about using technology to improve business operations and solve real-world problems.

PROJECTS

Maseno Connect

- Developed a web-based platform connecting students with food vendors.

CyberSentinel

- Developed a Python-based cybersecurity tool for vulnerability scanning and basic system auditing.
